

THALES

STUDENT INNOVATION CHAMPIONSHIP 2018

Innovate in
Artificial Intelligence
for a chance to win \$20,000!

AI

If you have a passion for data science, artificial intelligence, and tech, this challenge is for you! We are excited to announce that the 2018 student innovation competition is now live. Follow the steps below to register your student team for the chance to showcase your AI skills and win \$20,000!

1. Visit the landing page ([English](#) and [French](#)) to get a brief overview of the competition, incentives and key dates.
2. From the landing page, click one of the buttons to launch the Riipen app which will open to a more detailed competition sign-up page.
3. Sign-up for a free account and register for the competition. You can also invite your team members here by entering their emails. Don't forget to read the rules under **Terms and Conditions**.
4. The full case details and score sheet will be uploaded to the page on Sept 24th and will be sent to each team that has signed up through the Riipen chat.
5. Before the deliverable deadline, return to the competition page in the Riipen app and submit your team's slide deck and video presentation (files under 20mb and URL to videos streaming platforms e.g. YouTube).
6. Wait for your rating and feedback. If you're a finalist team, instructions will be provided to you for the next round by the 24th of October end of the day.
